Is your DSPT Certificate ready for CQC inspection?

DSPT is now part of the CQC New Assessment Framework, under Governance, Management & Sustainability Quality Statement within Well-Led and CQC will ask whether you have a compliant DSPT.

Do you know where to find your DSPT certificate?
Have you downloaded or printed ready for CQC inspection?
Once you publish your DSPT, the confirmation email will include your certificate. Alternatively, log into your DSPT, select **View previous publications** and **download** your **certificate** from the publications page.

Ensure your certificate is available during CQC inspections, we know CQC are asking for evidence of a compliant DSPT.

Unsure what DSPT is and why you need to complete it?
The DSPT is a self-assessment of all things Data Security & Protection within your organisation and is an annual requirement. Completing all the questions and having everything in place demonstrates compliance with GDPR, Data Protection legislation and provides evidence of compliance to CQC.
DSPT covers your organisation end to end within 4 sections

Staffing & Roles   Policies & Procedures   Data Security   IT Systems & Devices

Need to republish but need help? Started but now a bit stuck?
Couldn't face looking at it yet?

We understand how daunting the DSPT can be, ==get Free, Fully Funded Support from HCPA==
