Overview

Southwest Adult Social Care teams were aligned to PCN footprints as part of the Connect Programme and defined by the Basildon and Brentwood Alliance.

Caseloads are now aligned to the neighbourhoods and activity is sorted and allocated to teams wrapped around the PCN boundaries, with resource flexing to meet any local increases in demand across areas.

The neighbourhood teams and D2A teams are responsible for undertaking Care Act assessments, planned and unplanned reviews, support for carers, safeguarding, MCAs, best interest decisions and DSTs.

Please continue to use existing referral pathways into Adult Social Care (ASC) as our process for referral via the Adult Social Care Connect remains business as usual.

Southwest Essex –A Greater Focus on Place & Neighbourhood
