

Instructions and Guidance for bidders to complete the DN702954 OPR004 Integrated Residential and Nursing Procurement 2025

23rd December 2025

Agenda

3-5	Background Information
6-17	Navigating Pro contract
18	1.1 IRN Questionnaire
19-20	1.2 Pricing Matrix
21-30	1.3 Climate Calculator
31-38	Climate Reduction Questionnaire
39	ICB Provider Detail Questionnaire
40	Contact Details

Background

Essex County Council (ECC) and the Essex Integrated care boards (ICB'S) more specifically Mid and South Essex Integrated care board, West Essex & Herts Integrated Care Board, and Suffolk and North East Essex Integrated Care Board together known as the Partners are committed to ensuring the people of Essex experience high quality and consistent health and social care outcomes. By working together, the Partners have been able to develop an integrated service specification, quality indicators and pricing matrix for care in a residential setting.

ECC are leading on the procurement exercise. The two frameworks are for 6 years starting 1st June 2025 and will be directly awarded to the successful bidders with the provision to make individual placements under the framework agreements for the relevant lots by ECC and the ICB's based on the placement process outlined for each lot.

Each organisation will contract independently with the successful providers using the relevant framework agreement included in the invitation to tender pack.

The procurement is being let in 3 lots. Bidders may apply for one lot, all lots or any combination of lots:

Lot 1- Care in a residential setting (Social Care for Essex County Council)

Lot 2- Care in a residential setting with funded nursing care (Social Care for Essex County Council)

Lot 3- Care in a residential setting - NHS funded Care (For the Integrated Care Boards named above.)

Qualifying Criteria

Individual Service Provider's Premises wishing to join the IRN 2025 Agreement must:

- Be registered with the Care Quality Commission for the service they are bidding for and to maintain that registration throughout the Contract Period.
- Individual Service Provider Premises must reside within 10 miles of Essex County Council geographical jurisdiction.
- Where your organisation is a group, but you wish to have individual contracts per home, each home will need to have its own legal identity, and an ITT will have to be completed for each home individually.

Getting Started

- Procontract eSourcing system is the Authorities electronic tendering system. Organisations wishing to bid need to register to access the opportunity.
- Once successfully registered, log into your account and navigate to my Activities Tab on the blue header. Select Essex County Council as the buyer which will list all available opportunities.
- The opportunity is open between 24th December 2024 – 11th February 2025 12 Noon.

Navigating the Opportunity in Procontract

You have now successfully registered for access to the opportunity. Please close the pop up by clicking on right red **X**

The screenshot shows the Proactis website interface. At the top, the Proactis logo is on the left, and a navigation bar contains links for Home, Find opportunities, My activities, My contracts, and Help. Below the navigation bar, a breadcrumb trail reads: Home > Find opportunities > OPR004 Integrated Residential and Nursing 2025. The main content area displays the title "OPR004 Integrated Residential and Nursing 2025". A large pop-up window is centered on the screen, titled "Expression of interest successful". The pop-up contains the following text: "Expression of interest successful", "You have successfully registered interest in the following opportunity for ASC :-", "OPR004 Integrated Residential and Nursing 2025", and "You will receive an email notification shortly confirming your registration of interest." Below this, a section titled "What happens next?" lists three bullet points: "You have been invited to participate in the ITT event for this opportunity.", "OPR004 Integrated Residential and Nursing 2025 has been added as a new activity in your [activities centre](#).", and "To view this ITT event now, click [here](#)." Another section titled "I don't have time to look at the ITT now, what should I do?" lists two bullet points: "Don't worry your activity is stored safely against your account and an invitation has been sent to your registered email address sevans.uk123@gmail.com. The invitation contains a direct link to this ITT." and "Please note however that the closing date for this ITT is 11 February 2025 12:00. Make sure you leave enough time to complete your response." At the bottom of the pop-up, it states "For reference, the primary contact for this opportunity is listed below :-" and provides contact details for Mr Simon Evans, including his phone number (0333), email address (simon.evans@essex.gov.uk), and a table with procurement portal information. The table has three columns: Procurement Portal (South East Business Portal, Ref Id: DN702954), Organisation (Essex County Council), and Activity (OPR004 Integrated Residential and Nursing 2025). A "Close" link is at the bottom left of the pop-up. In the background, a sidebar on the left shows a list of activities with labels like "Me", "Reg", "Ke", and "Est". At the bottom right, there is an "Attachments" section showing "No attachments".

1.1 IRN Questionnaire

Please download to your desktop and save 1.1 IRN Questionnaire. The Bidder is to complete the required information concerning their organisation. The resultant contracts will match the information given here.

1.2 Pricing Matrix

The Pricing Matrix is used to obtain the individual home's information, the base rate for each lots the bidder is bidding for and to confirm the minimum number of beds being offered to ECC at the selected base rate at any one time.

Bidders are to confirm the pricing applicable to each home for the lots for which they have applied.

The bidder is required to complete the pricing matrix, in the prescribed format and attach the completed document to the relevant question in the Questions section on the Procontract eSourcing system.

Bidders can choose a price for individual homes against Lot 1 and/or Lot 2 and/or Lot 3 from a list of choices dependent upon the physical location of the home

Bidders are required to complete all yellow highlighted cells for each care home applying to join the IRN 2025. This is an intuitive form so once you have selected your home name from the cell in column B many of the cells will populate necessary information. Likewise, once you have selected a yes/no answer to which Lots you are bidding for, Cells will appear as yellow for you to select your rate for that Lot. If the Individual Service Provider Premises is outside Essex geographical jurisdiction, please select home not listed from the drop down and then overwrite the Care home name and work through each cell inputting necessary information.

1.3 Carbon Calculator

The Carbon Calculator is being used to calculate care homes carbon emissions. This will be submitted as part of each care home's tender submission (and at other intervals during the life of the framework).

The Carbon Calculator is a mandatory submission and is for information only at this stage. This will enable the Council to benchmark and for care home providers to better understand their care home carbon emissions.

Bidders are required to complete the Carbon Calculator, in the prescribed format and attach the completed document to the relevant question in the Questions section on the Procontract eSourcing system.

You will need utility and service invoices to complete this calculator.

1.3 Carbon Calculator

Each Individual Service Provider Premises wishing to bid for the IRN 2025 needs to complete a Carbon Calculator.

There are Eight tabs to be completed on this document, On each tab the section to be completed is highlighted Yellow. You will need your utility bills to complete this document.

1. Summary
2. Energy Bills –Gas
3. Energy Bills-Electricity
4. Heating Oil Bill
5. Clinical waste
6. Air Conditioning
7. General Waste
8. Water Bill

The following Grey slides will take you through each tab and how to complete it.

REMEMBER TO SAVE THE COMPLETED DOCUMENT TO YOUR DESKTOP READY TO UPLOAD TO THE RELEVANT QUESTION SET IN PROCONTRACT

1.3 Carbon Calculator – Summary Tab

Name of Home:

CQC Location Number

Year of Completion

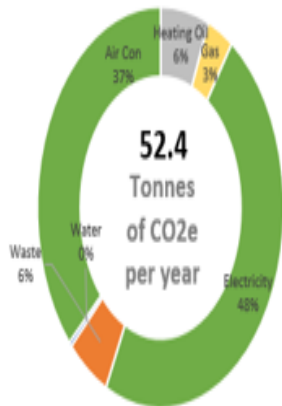

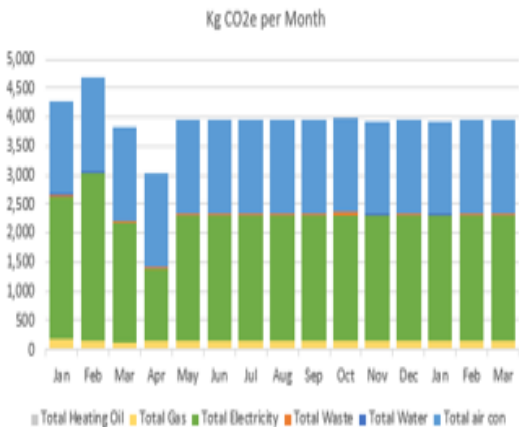

Annual CO2e Estimate:

52.4 Tonnes of CO2e

Instructions:
Fill in your monthly usage in each tab using your bills. (You can complete either Jan-Dec or Apr-Mar depending on your billing pattern and if you have gaps averages will be used to estimate remaining months)
Cells that need to be completed are highlighted yellow
Annual and monthly estimates are displayed on this page, further detail can be found on each tab.
[Information on the conversion factors used to generate these estimates can be found here.](#)

Annual CO2e by source:	kgCO2e	%
Heating Oil	3,327	6%
Gas	1,811	3%
Electricity	24,903	48%
Clinical Waste	329	1%
General Waste	2,592	5%
Water	198	0%
Air Conditioning	19,240	37%

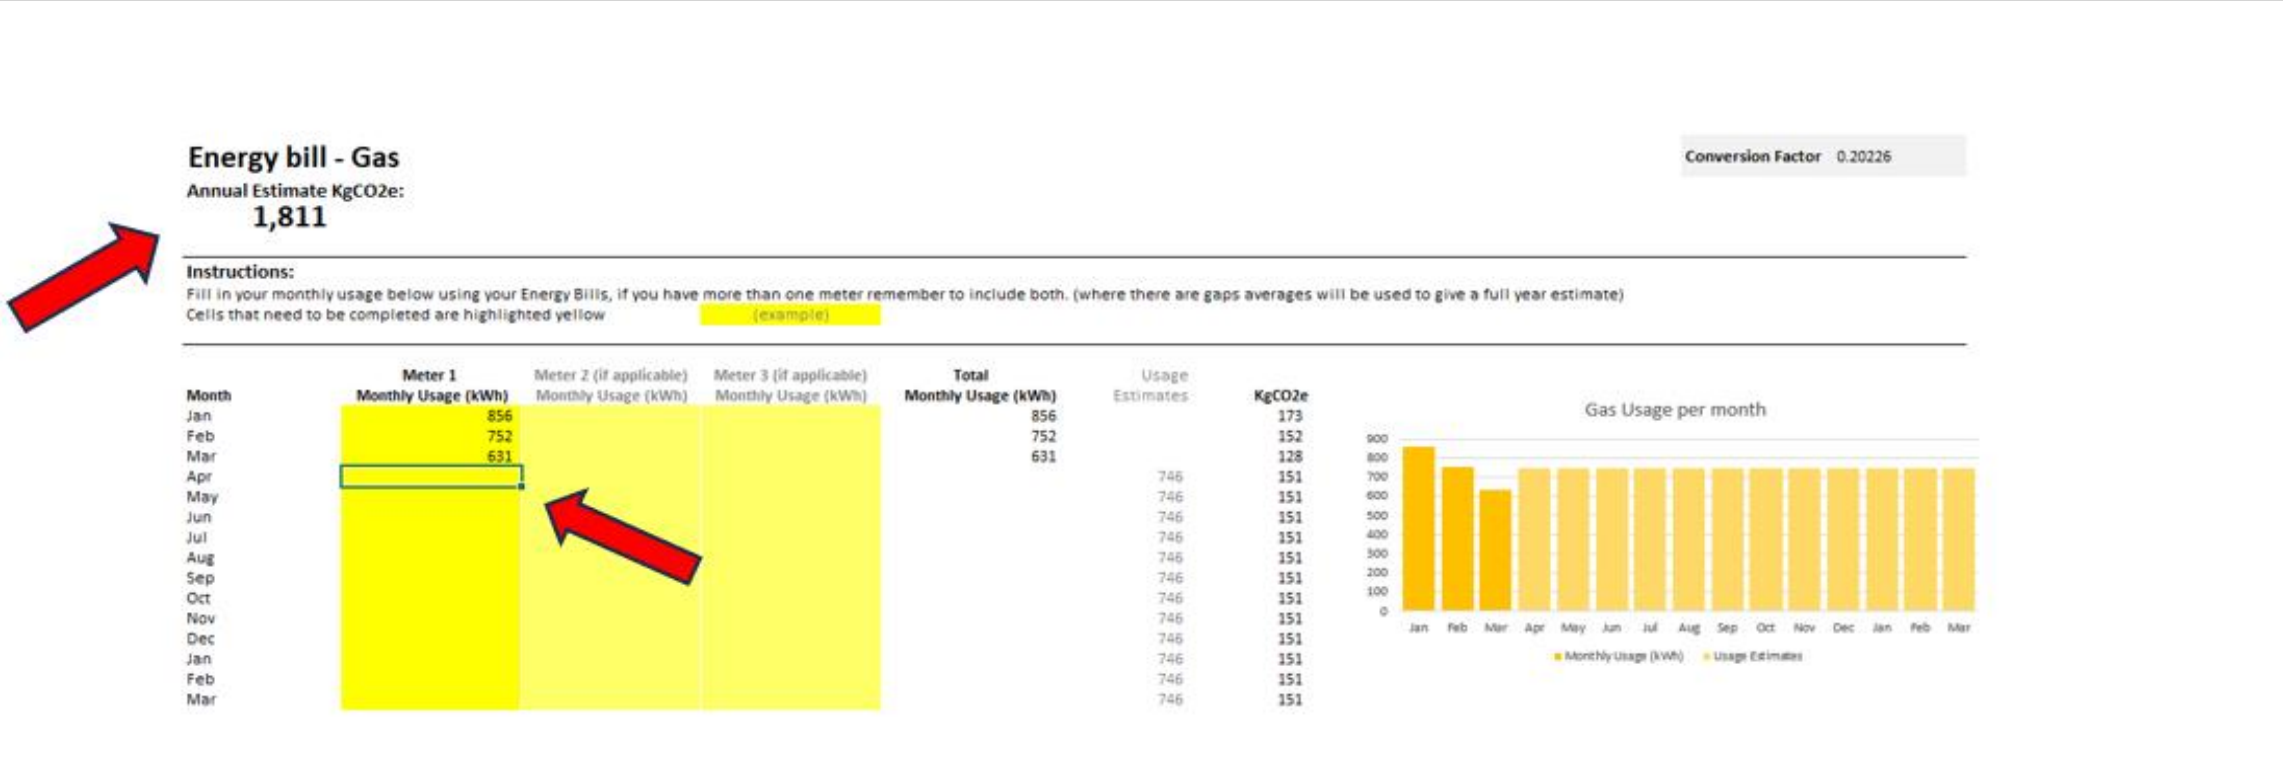

Annual Total Estimate Kg CO2e: 52,399

There are two cells to complete on this tab highlighted yellow. Please select your home name from the drop-down cell highlighted yellow. This is an intuitive form so once you have selected your home name the Home CQC ID will automatically populate. If your Service Provider Premises are outside Essex geographical jurisdiction, please select home not listed from the drop down and then overwrite the Care home name and CQC ID. Year of completion: Please enter the year you are completing this document. As you complete the further 7 tabs this page will collect and display your annual CO2e estimate.

Carbon Calculator- Gas Tab

Enter the Kilowatt hours used per month for Gas within the Home in the cell highlighted yellow for the relevant month. Averages will be used for any gaps to give a full year estimate. As you enter your monthly usage your annual KgCO2e will be calculated at the top of the page. If you have more than one meter, please remember to include both.

1.3 Carbon Calculator- Electricity Tab

Enter the Kilowatt Hours used per month for Electricity within the Home in the cell highlighted yellow for the relevant month. Averages will be used for any gaps to give a full year estimate. As you enter your monthly usage your estimated annual KgCO₂e will be calculated at the top of the page. If you have more than one meter, please remember to include both.

Energy bill - Electricity

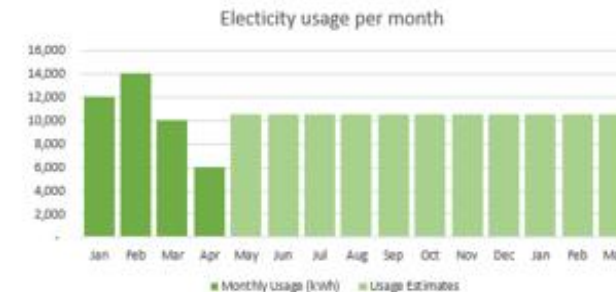

Annual Estimate KgCO₂e:
24,903

Conversion Factor: 0.20496

Instructions:

Fill in your monthly usage below using your Energy Bills, if you have more than one meter remember to include both. (where there are gaps averages will be used to give a full year estimate)
Cells that need to be completed are highlighted yellow (example)

Month	Meter 1 Monthly Usage (kWh)	Meter 2 (if applicable) Monthly Usage (kWh)	Meter 3 (if applicable) Monthly Usage (kWh)	Total Monthly Usage (kWh)	Usage Estimates	KgCO ₂ e
Jan	12,000			12000		2,460
Feb	14,000			14000		2,869
Mar	10,000			10000		2,050
Apr	6,000			6000		1,230
May					10,500	2,152
Jun					10,500	2,152
Jul					10,500	2,152
Aug					10,500	2,152
Sep					10,500	2,152
Oct					10,500	2,152
Nov					10,500	2,152
Dec					10,500	2,152
Jan					10,500	2,152
Feb					10,500	2,152
Mar					10,500	2,152

Select the type of oil your heating system uses in the yellow highlighted cell from the drop down selection. Then enter where indicated invoice information regarding date of purchase, price per litre and total invoice value in the yellow highlighted cells. As you enter your monthly usage your estimated annual KgCO₂e will be calculated at the top of the page.

[illegible]

1.3 Carbon Calculator - Clinical WasteTab

Please fill in your monthly usage using your clinical waste bills and bags collected. Where there are gaps, averages will be used to give a full years estimate. As you enter your monthly usage your estimated annual KgCO₂e will be calculated at the top of the page.

Clinical Waste Bill

Annual Estimate KgCO₂e:
329

Conversion Factor: 0.249

Instructions:

Fill in your monthly usage below using your clinical waste bills and bags collected. (where there are gaps averages will be used to give a full year estimate) Assumptions on full bag size included below.
Cells that need to be completed are highlighted yellow (example)

Month	Monthly Waste Bags	Bags Estimates	Tonnes Clinical Waste	KgCO ₂ e

Clinical Waste bags per month

Assumptions:

Yellow bag size 90 litres

Yellow bag weight 12 KG

Estimated conversion factor (tonnes Co₂e per tonne of wast 0.249

1.3 Carbon Calculator-Air Conditioning-Tab

If you use air conditioning, please record your 'top up' refrigerant purchases in either monthly amounts or annual amounts in Kg . If you choose to input monthly you can leave gaps for any months that refrigerant was not topped up. , Cells that need completing are highlighted yellow. As you enter usage your estimated annual KgCO₂e will be calculated at the top of the page.

Air Conditioning
Annual Estimate KgCO₂e:
19,240

Conversion Factor: 1924

Instructions:
If you use air conditioning fill in your usage below based on how much you have had to 'top-up' the refrigerant over the last year (you should find this on your air con billing / service details). Depending on the size of the air con unit it is likely to require a service every 3,6 or 12 months. You can enter this either as a total annual figure **OR** as monthly figures below if it has been topped up more than once. You can leave gaps for any months it has not been topped up. Cells that need to be completed are highlighted yellow (example)

Which refrigerant does your system use? **R410A / A220**

Annual or Monthly data capture? **Annual**

Annual 'Top up' (kg) **10.00**

How do I find this information?
The refrigerant type will be shown on a label on the aircon system itself (e.g. right) and also on any service information you have. R32 (also called HFC-32 or Difluoromethane) is the most commonly used in the UK and R410A is an alternative sometimes used in larger systems. R22 is no longer installed but is still used in some old systems (installed pre 2010).

REMEMBER TO SAVE THE COMPLETED DOCUMENT TO YOUR DESKTOP READY TO UPLOAD TO THE RELEVANT QUESTION SET IN PROCONTRACT

1.4 Climate Reduction Questionnaire

Essex County Council (ECC) is committed to achieving carbon net zero by 2050, as set out in the council's Everyone's Essex strategy. A significant source of the Council's greenhouse gas (GHG) emissions are from purchased goods and services, therefore, ECC is working with its suppliers to reduce GHG emissions in this area.

The Climate Reduction Questionnaire sets out measures within care homes to reduce carbon emissions and to minimise environmental impact. Each Individual Service Provider Premises wishing to bid for the IRN 2025 needs to complete a Climate Reduction Questionnaire.

This checklist will be completed annually and will form part of the quality rating for ranking each care home on the Preferred Supplier Rank List (PSRL). Over the lifespan of the contract, it enables us to monitor environmental improvements made within the Homes.

There are 26 questions over five categories in the questionnaire to answer questions on

- Travel and Transport
- Energy
- Food and Waste
- People
- Planning

1.4 Climate Reduction Questionnaire

Essex County Council (ECC) is committed to achieving carbon net zero by 2050, as set out in the council's Everyone's Essex strategy. A significant source of the Council's greenhouse gas (GHG) emissions are from purchased goods and services, therefore, ECC is working with its suppliers to reduce GHG emissions in this area.

The Climate Reduction Questionnaire sets out measures within care homes to reduce carbon emissions and to minimise environmental impact. Each Individual Service Provider Premises wishing to bid for the IRN 2025 needs to complete a Climate Reduction Questionnaire.

This checklist will be completed annually and will form part of the quality rating for ranking each care home on the Preferred Supplier Rank List (PSRL). Over the lifespan of the contract, it enables us to monitor environmental improvements made within the Essex contracted Care Homes.

Section 1 Travel and Transport

Bidders are to answer three questions in regard to their workforce's method of transport to work in the yellow highlighted cells under column Provider Response.

Each highlighted yellow Cell is free text for you to input a percentage against the category

Your response should total 100% over the four categories. Question 4 will automatically populate.

As you input your answers the green highlighted cells will display your percentage score awarded.
