COMMUNITIES

## Mitie supports local student with summer work experience

As part of Mitie's continued focus on creating a place to work and provide opportunities for local community to learn, develop and progress.

Mitie Projects team on ECC contract provided 1 week work experience to local year 11 student.

During the work experience:

- He shadowed Energy Manager, assisting with data analysis, organising social value events and various case studies.
- He also had several meetings with staff members and was involved in monthly projects meeting
- Learnt things relating on core programme, finance, security and project administration works.

This work experience helped him with acquiring key skills such as communication, team building, managing client expectation and exposure to various parts of projects delivery and energy management.
