Mitie Empowering 3 local students through Internships on Career Ready Program

3 students from Billericay School recently completed a transformative four-week paid internship at Mitie on ECC contract. This internship is a part of the Career Ready program, aimed at providing young students with vital work experience.

During their time at Mitie, these students learned valuable transferable skills, including facility management, energy and sustainability, client relations, finance, communications skills and teamwork.

This program has demonstrated the positive impact of such initiatives on young students. By offering real-world work experiences, this partnership has equipped these students with essential skills and knowledge, bridging the gap between education and professional life. This internship opportunity has not only opened doors for the students but has also contributed to building a skilled and motivated workforce, poised to make a meaningful impact in their communities and beyond.
